CastForge 2026: Where innovation meets precision

Your platform to bigger and better business!

Are you looking to perfectly position your company, make valuable business contacts and explore new markets? Then CastForge 2026 is your stepping stone to greater things! This is where you will meet decision-makers who are perfect for your plans – buyers, technical experts and industry leaders from the drive technology, mechanical engineering and plant construction sectors, along with many more.

Why should you exhibit at CastForge?

To meet your customers directly – your target audience is waiting for you right here at CastForge.

Top-quality trade visitors with specific requirements when it comes to purchasing and processing cast and forged parts are looking for reliable partners like you!

Maximum reach and visibility – Take this chance to present your solutions, innovative ideas and manufacturing expertise to an international expert audience.

What to expect

Superb networking and strong partnerships – spend three trade fair days in the company of approx. 500 leading foundries, forges and suppliers from all over Europe – the perfect place to secure new business and cooperations!

Stay ahead of the rest – while they're searching for solutions, you're right at the heart of it all! CastForge is where supply meets demand, where top-quality contacts are forged with true business potential. This is a platform for efficiency, precision and quality – exactly what your company represents.

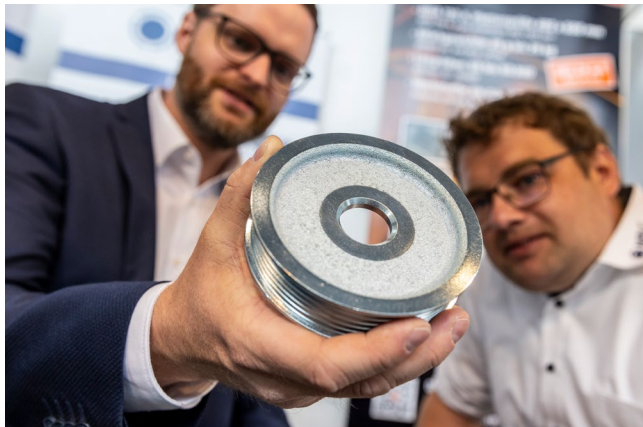

Don't miss this opportunity to showcase your company on a strong industry platform!

Why is CastForge not to be missed?

This is a trade fair specifically tailored to your requirements - and to your success

The entire industry at the one location

From cast or forged blanks to their machine processing and the final components: This is where international suppliers and experts for cast and forged parts come together.

An audience with decision-making authority

Trade visitors to CastForge are there to show more than simply an interest - they are making decisions relating to technical and commercial business. They are focused on long-term cooperation and sustainable business relations: CastForge is where supply meets demand, where top-quality contacts are forged with true business potential.

Numerous advantages

Forge new customer relationships on a personal level

Expand your international network and gain access to global markets

Showcase your company before an expert community

Present your skills and technological expertise in casting, forging and processing

Key to Markets

The Greater Stuttgart area is a leading high-tech location and one of the strongest economic regions in Europe. The metalworking and metal processing companies based here are responsible for around 50 percent of Germany's total production.
