

ICS International Congress Center Stuttgart

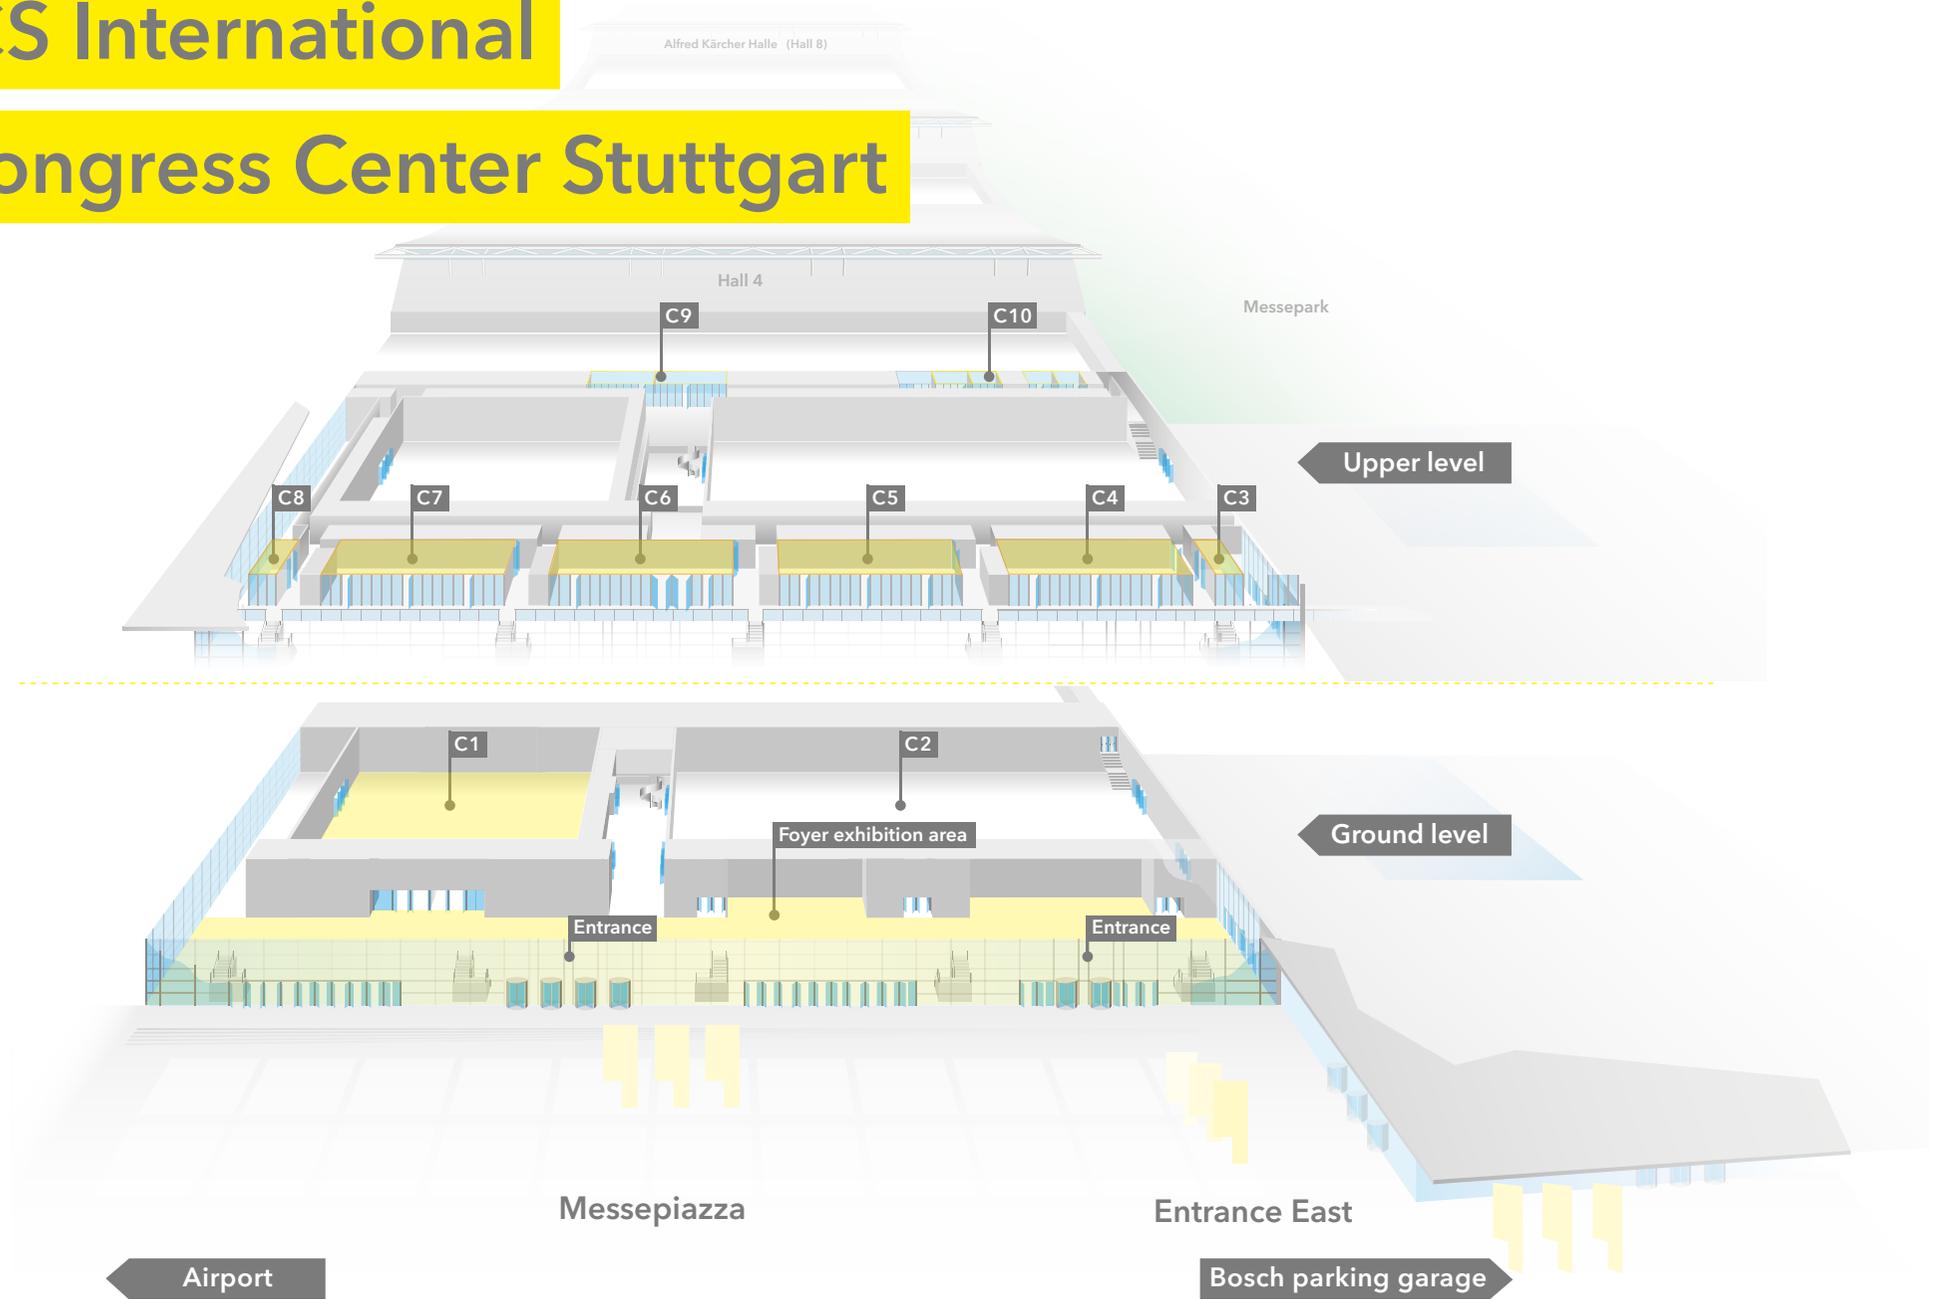

The ICS International Congress Center Stuttgart is one of Germany's largest and most modern congress centres.

Up to 10,000 guests can experience state-of-the-art conference technology and a highly variable room concept at the ICS with up to 33 flexible rooms, all with natural daylight.

Thanks to their integrated infrastructure, the ICS and Messe Stuttgart create perfect conditions for creative and bespoke event concepts.

The ICS ground level is taken up by conference hall C1 and the multifunctional conference and exhibition hall C2.

The large C1 conference hall for up to 3,000 guests can be divided by sound-proof partitioning walls into two, three or four rooms. The versatile hall is equipped with a fixed stage and an additional stage area for every partition option.

The conference and exhibition hall C2 can accommodate up to 5,000 guests or an exhibition on 4,933 gross square metres. The hall can be divided by a partition wall. This allows for simultaneous use for a conference with accompanying exhibition and catering.

C2.3	1,724	1,748	816	790	1,040

The capacities indicated show the maximum permissible number of visitors in the room for the respective layout variant in the room. Depending on the event concept or the desired equipment (technology, superstructures, facilities, etc.), this figure may be reduced accordingly.

Barrier-free access

The lower and upper levels are accessible by lift barrier-free. There is also a "Toilet for all" * available.

* a barrier-free sanitary facility with lounge and lift, which offers perfect support for people with severe or multiple disabilities.

ICS, ground level: Conference hall C1

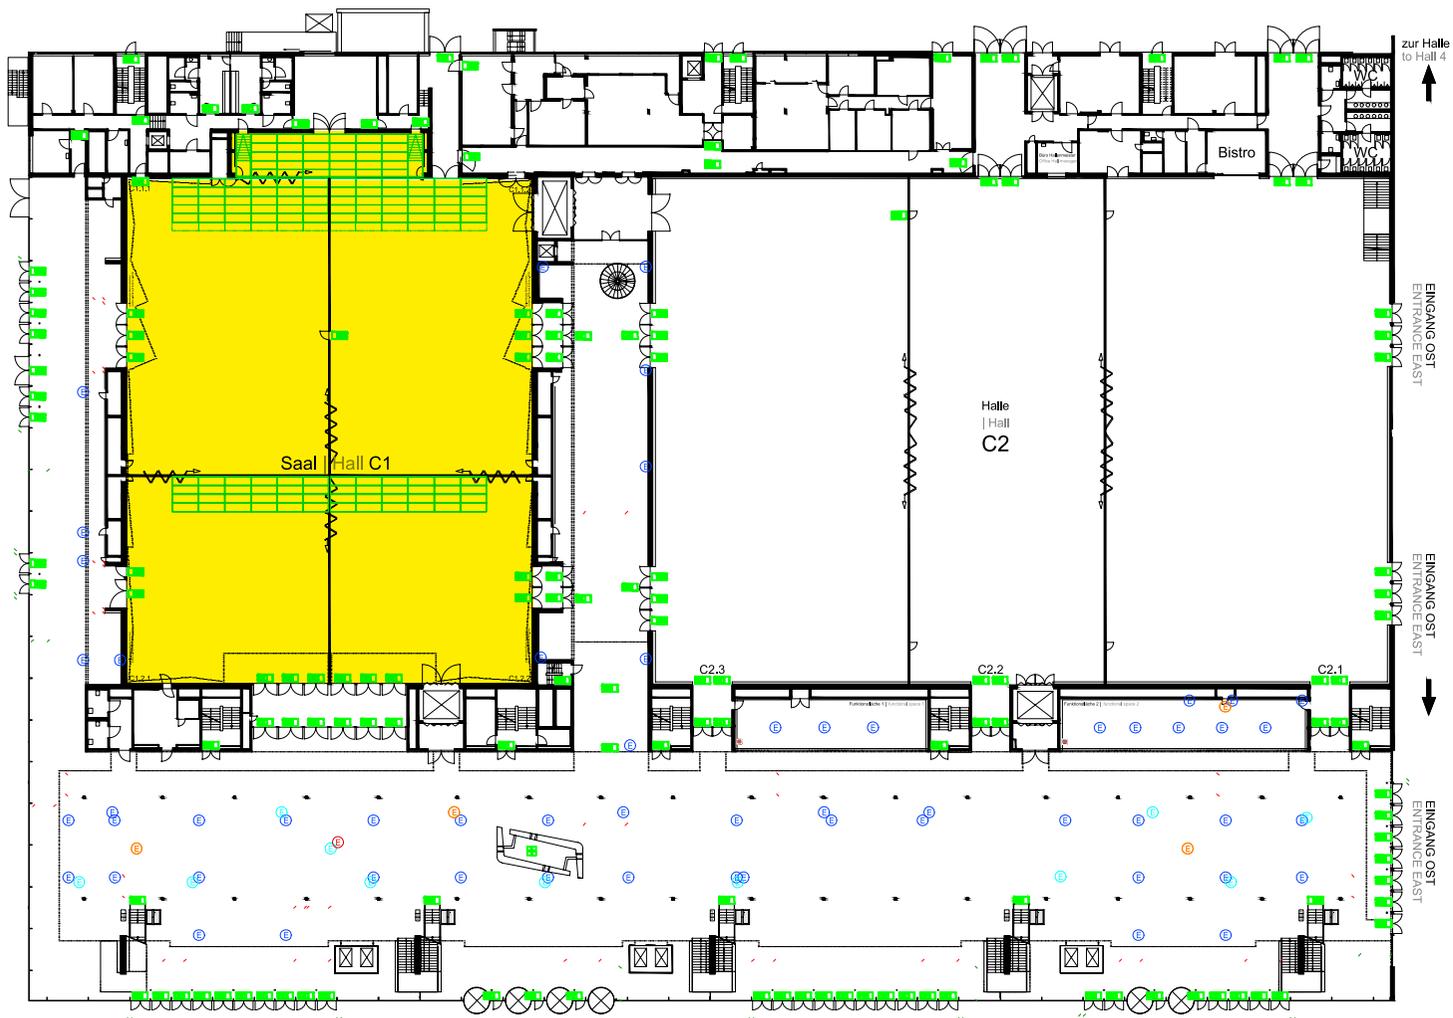

Conference hall C1 is located on the ground level of the ICS International Congress Centre Stuttgart.

The hall can seat 3,000 guests. A soundproof and flexible partition wall system allows dividing the room into two, three or four halls.

Conference hall C1 is equipped with a fixed stage and additional action areas plus an additional stage area for every partition option.

ICS, ground level: Conference hall C1

Internal dimensions length x width	58 m x 46 m
Total floor area	2,669 m ²
Room height / Clearance	11 m / 9 m

Hall details

- Barrier-free access
- Dimmable hall lighting, daylight, full dimming
- Air conditioning
- Underfloor heating
- Floor finish: Parquet
- Floor load 750 kg/m²
- Floor load on supply channels 250 kg/m²
- Floor load on stage platform 250 kg/m²

Stage

- Retractable stage in the stage house 108 m²
- Stage in front of stage house/front stage (WxD) 36.00 m x 5.00 m = 180 m²

ICS, ground level:

Multifunctional hall C2

Internal dimensions length x width	85 m x 58 m
Total floor area	4,933 m ²
Room height / Clearance	10 m
Lighting	300 lux
Floor load capacity	16 kN/m ²
Floor load on supply channels	16 kN/m ²
Ventilation	Standard ventilation
Suspensions	1 kN/m, max. 5 kN/5 m

ICS, upper level: Conference area

Rooms C3 to C10 can be divided into as many as 33 conference or meeting rooms. Thanks to the flexible partition wall system, the largest conference rooms can be divided into four individual rooms. Every partition can be operated from a control booth and be equipped with additional technology.

The individual rooms accommodate from 6 to 440 guests. From the gallery in the conference and seminar area, participants can enjoy a beautiful view over the Messepiazza square.

Suitable office and work rooms are also available for meetings with a small number of participants. All rooms have natural light and the option of shading.
