# OUTDOOR AMBIENTE LIVING

Enjoy outdoors – 365 days of the year

03 – 07 and 19 – 23 February 2024

Messe Stuttgart

Powered by

World's leading trade  
fair for roller shutters,  
doors/gates and sun  
shading systems

## Welcome to Stuttgart!

We are looking forward very much to welcoming you to OUTDOOR. AMBIENTE. LIVING. in the trade fair center park! We would therefore like to provide you with all the relevant information about our special show which will ideally complement the exhibition areas at INTERGASTRA, the leading trade fair for the hotel and restaurant business. That's because modern sun shading and weather protection systems play a vital role in the optimum use of outdoor areas. This then makes an important contribution towards cost-effectiveness and customer satisfaction. Let yourself be inspired by the numerous product innovations from our exhibitors!

Kind regards

A handwritten signature in black ink, appearing to read 'S. Schmid'.

**BAHAMA®**

## Bahama – parasols and sun sails

Bahama is synonymous with professional parasols and sun sails „Made in Germany“. Founded back in 1950, this premium German manufacturer now designs and produces a wide range of high-quality parasols and sun sails which are renowned for their wind stability, durability, compactness and aesthetics.

Superb modern design and functional durable quality – national and international customers rely on Bahama’s sophisticated industrial technology and craftsmanship for shading and all-round weather protection of their outdoor areas.

Visitors to OUTDOOR. AMBIENTE. LIVING. can look forward on Bahama’s stand to a pure feel-good atmosphere for a successful outdoor season the whole year round. Sit comfortably outside and enjoy fresh air while feeling warm and protected. Whether under blue or grey skies, every visitor will feel at home in our Bahama outdoor lounge and be able to experience and enjoy the outstanding qualities of our parasols live in any weather conditions.

## BRAND NEW PROJEKT – Aluminium pergola systems

Brand New Projekt is a manufacturer of aluminium pergola systems. The company manufactures customised products and uses its creative designs to transform your outdoor areas into ideal living spaces.

Our company, which works in the areas of bioclimatic aluminium sliding roofs, pergolas, fixed glass ceilings, conservatories, glass systems and shading systems, is continuously extending its customer portfolio by a high-quality product and service concept.

## Cisoventex scissor arm awnings – We design spaces

Spaces, which are airy and spacious, and in which you are also protected against sun and rain. Spaces that invite you to sit together in a pleasant atmosphere. They are created by attaching a scissor arm awning, which is totally aesthetic thanks to its unique design. The awning provides visual orientation, but still allows you to look around freely. You can see this for yourself at OUTDOOR. AMBIENTE. LIVING.

The special design of our awnings creates a harmonious interaction between a historic façade and state-of-the-art technology. All components of the scissor arm awnings are

lasting, high-quality, energy-conserving and recyclable. The constructions are highly precise and extremely stable. This is how you create sustainable values for your buildings. The use of steel for the scissor arms enables a projection up to 7 metres and system widths up to 25 metres. In addition, nobody has to forgo comfort with scissor arm awnings: powerful motors combined with an intelligent control system move the awning to the required position.

**Corradi**  
OUTDOOR LIVING SPACE

## Corradi – Customised solutions for the restaurant industry

The outdoor area of a restaurant, the pool area in a hotel, a wellness section or outdoor spaces in a city are resources which can be ideally enhanced by designing an additional area for all-year-round use. This is one reason why Corradi has been supporting the restaurant industry with unique and customised solutions for more than 45 years. There are numerous ways to cover outdoor areas – extending from Pergotenda®, a covering system with fabric and a patented roll-on closure, through to bioclimatic pergolas. There are also sun sails which stem from the use of sail technology that makes them unique and guarantees

extraordinary weather resistance and wear resistance. Another objective that should not be overlooked is the transformation of an outdoor area into a place which can be used in many months of the year. A wide range of rotating closures for Pergotenda® and bioclimatic pergolas, as well as indispensable lights and decoration accessories are therefore available since they are far more than simple details.

## IDEAL MARKISEN – Sun shading systems with Mediterranean elegance

The company Ideal Markisen is synonymous with professionalism. All our awnings are custom-made according to the highest quality standards.

The tunnel awning IM 200 is characterised by Mediterranean elegance and an attractive design. It produces a stylish, creative atmosphere in restaurants, hotels, lounges and reception areas.

We can offer you numerous selection options for production: fixed awnings, motorised remote-controlled awnings, LED lights or lettering.

High-quality workmanship and fast production are our maxims.

LEINER

## LEINER – Restaurant awning solutions

With its patented SUNRAIN sun shading and rain protection awnings together with various awning systems, Leiner has managed to protect a large number of outdoor areas in restaurants, leisure parks and hotels against sun, wind and rain, thereby ensuring sales in the gastronomy sector even during changeable weather conditions. Satisfied customers and recommendations have made Leiner the leader in the area of restaurant awnings. Leiner supplies more than products, we offer solutions!

Who are we? Leiner has manufactured awnings for almost 50 years and operates a qualified nationwide network of regional specialists. Our SUNRAIN partners supply every B2B customer with customised restaurant awning solutions for your outdoor area. Professional installation and advice, as well as after-sales service are a matter of course for us. Wherever an active SUNRAIN partner is not available, the company Schirmherrschaft will look after your interests. Schirmherrschaft is a nationally operating SUNRAIN partner and is regarded as the driving force behind this network.

Visit us on **stand PU08** in the **lower area of the trade fair center park** between Hall 5 and the Oskar Lapp Halle (Hall 6).

 **Lucas**  
O U T D O O R

## Lucas Outdoor – Successful at any time of the year

With this kind of all-weather protection, Lucas Outdoor equips restaurant terraces with large (also connectable) canopies and additional weather protection solutions. The all-weather canopies offer ideal protection, planning certainty and guaranteed full terraces regardless of sun, rain, wind and cold. Our all-weather canopies provide maximum resistance against strong wind loads and heavy rain; even designs that cope with snow loads are available. Together with building owners and architects, we find individual solutions for every requirement.

Our new developments are automatically movable terrace roofs: a slatted glass roof and a Vario roof in which the front half of the roof can be opened.

Our portfolio is supplemented by our partner ParaPro, a specialist and manufacturer in the area of parasols and wind protection systems.

We are looking forward to seeing you on our stand.

**markilux**

## markilux – The best under the sun

In 2024 markilux will have a prominent stand with an exhibition area of around 145 square metres at OUTDOOR. AMBIENTE. LIVING. The company will systematically focus on products which yield substantial benefits for restaurants and hotels, and turn outdoor areas in profitable spaces generating high sales.

markilux will present solutions with many additional features such as lights, radiant heaters and visual and wind protection. These solutions enhance outdoor areas and enable them to be used for longer periods. In addition to

the specific products which visitors will be able to experience in a live demonstration, an all-round service will be presented.

The markilux Team supports every project from the initial discussion, the provision of specialist and technical advice, and clear 3D visualisations of possible concepts through to the fully fitted system. markilux is convinced that hoteliers and restaurateurs will obtain a completely new insight into outdoor living through linking of the thematic areas.

Visit us on **stand PU08** in the **lower area of the trade fair center park** between Hall 5 and the Oskar Lapp Halle (Hall 6).

 **ParaPro**  
GROBSCHIRME & WINDSCHUTZ

## ParaPro – parasols and wind protection systems 100% made in Germany

ParaPro manufactures parasols and wind protection walls at its own plant. All these products are 100% Made in Germany. The prerequisite for a terrace that can be used the whole year round is the integrated installation and design of the available outdoor area. ParaPro has been performing this task for over 40 years and makes outdoor terraces fully usable. The company's many years of experience and its extensive know-how form the basis for timeless and sophisticated products: parasols, wind protection walls and matching accessories. The best way to find out what type of parasol is right for your terrace is

to consult our team of experts. Thanks to our in-house metal and fabric processing department, we can handle individual requests by our customers. One requirement always remains the same: the terrace must be designed for guests in an appealing manner, it must make them want to stay, and it must be utilised to the full. Our portfolio is supplemented by our partner Lucas Outdoor, a specialist and manufacturer of all-weather canopies. The all-weather canopies offer ideal protection regardless of sun, rain, wind and cold.

Visit us on stand **PU14** in the **lower area of the trade fair center park** between Hall 5 and the Oskar Lapp Halle (Hall 6).

## REFLEXA – Outdoor living 365 days a year

Reflexa has won the R+T Stuttgart Innovation Award several times and is synonymous both with quality „Made in Germany“ and a wide range of sun shading systems. Thanks to the new Bella Lamella terrace roof, a restaurant area can now also be enlarged outside. The roof is made of high-quality aluminium and contains slats that can be opened up to an angle of 110 degrees. The light incidence can be flexibly adjusted. The Bella Lamella impresses as an absolute solid and all-weather roof that is 100% waterproof and has a permissible snow load of 112 kg/m<sup>2</sup>. Equipment such as radiant heaters or lights create a pleasant

atmosphere even on cool days. The Bella Lamella is the ideal season extension for your outdoor restaurant area. „We are looking forward to presenting this fantastic product during OUTDOOR. AMBIENTE. LIVING. and welcoming our customers again after a long break,“ said Managing Director Miriam Albrecht.

Passion for shade

## SHADESIGN – The somewhat different sun shading system

After SHADESIGN increasingly established itself in the past as an alternative in the private sector to other sun shading systems, the system is also appealing more and more to restaurants and hotels in order to ideally protect their terraces or garden areas against sun and any weather influences. Flexibility and the option of individual design are now decisive factors in almost every area of life – whether in a job, in leisure time or with fixtures and fittings in restaurants. SHADESIGN is just right for anyone focusing on design, functionality and a precise size in regard to sun shading systems.

The company has developed a very versatile system with its patented SHADE sun sail: SHADE combines the advantages of an awning system with the lightness of a sun sail. Thanks to its modular constructions, SHADE can be used for nearly every outdoor area of restaurants – a terrace, a balcony or an inner courtyard – and shades areas measuring up to 36 square metres.

The awning was yesterday – SHADE is today!

**CARAVITA®**

## WAREMA – Premium feel-good areas outdoors

You, too, can make use of the opportunities of an unlimited outdoor season! With high-quality sun shading and weather protection systems from WAREMA. We offer sophisticated and individually designed complete solutions for the outdoor areas of restaurants and hotels. In addition to the exclusive Lamaxa L70 slatted roof, we will show you the Big Ben parasol for example.

WAREMA, the SunLight Manager, is the leading brand for technical sun shading systems in Europe. The family-run company was founded in 1955 and has developed since

then into a full supplier of intelligent exterior sun shading systems and smart control systems. CARAVITA, one of the most important manufacturers of high-quality parasols and sun sails, is a member of the WAREMA Group.

Do you have unusual requirements? We are well-known for customised and attractive solutions coupled with reliable all-round service – both before and after the sale.

World's leading trade  
fair for roller shutters,  
doors/gates and sun  
shading systems

**19 to 23 February 2024 | Messe Stuttgart**

[www.rt-expo.com](http://www.rt-expo.com)

## **R+T 2024 – Your global industry meeting point**

For over 50 years, companies have been presenting their innovations and demonstrating their solutions for the key topics in the industry at R+T, the world's leading trade fair for roller shutters, doors/gates and sun shading systems. Numerous technical forums and networking events enable you to forge valuable contacts and provide fresh impetus for your everyday work. As the world's leading trade fair, R+T is also a meeting point for the industry, a trend barometer and an innovation platform.

The motto of R+T 2024 will be Create. Sustainable. Future. TogetherR+T.

Sustainability not only moves the industry, but is also already at the heart of policy. R+T 2024 will show what

contribution sun shading systems and energy-efficient doors and gates can make towards combating climate change.

Visitors to R+T 2024 will be able to experience a large number of innovative solutions in a live setting. These solutions satisfy all the high demands of end consumers.

The special show OUTDOOR. AMBIENTE. LIVING. will present innovations in sun shading and weather protection systems both during INTERGASTRA and at R+T from 19 to 23 February 2024.

**We are looking forward to your visit!**
