

ICS: Ground Floor

The ground floor of the ICS houses the Congress hall C1 and the multipurpose Congress and trade fair hall C2. Congress hall C1, which accommodates up to 3,000 people, can be divided into two, three, or four separate halls using soundproof partitions. C1 supports every partitioned configuration thanks to its fixed stage and additional presentation platforms toward the middle of the hall.

The multipurpose Congress and trade fair hall C2 offers space for seating 5,000 people or planning a trade fair spanning 4,933 square metres (gross). This hall can also be separated by a partition, which makes it possible to organise a conference, a corresponding exhibition, and catering all in the same location.

ICS: Ground Floor

Convention hall	m ²	●●●●	■ ■	○	▬
C1	2,699	3,030	1,472	1,450	2,004
C1.1	1,573	1,680	784	710	1,200
