Direct service from over 90 international destinations to King Khalid International Airport (RUH)

Convenient parking

Secured on-site underground parking, less than 20 minutes from the airport

Conference

Expo

Networking

Solutions for the entire H₂ value chain.

The Kingdom of Saudi Arabia has the ideal climate and resources to create climate-friendly Hydrogen – green from the desert sun and wind, and blue from abundant natural gas – and is already targeting exports of four million tons annually by 2030. Now is the time to bring together national and international industry players and make this a reality.

As the leading event for hydrogen and fuel cells in the Middle East / Gulf Cooperation Council (GCC) region, hy-fcell Saudi Arabia bundles competencies in international perspectives, knowledge exchange and business networking, along with the urgent necessity to accelerate the fight against climate change. The conference and expo will showcase world-class solutions along the entire value chain, including conversion of hydrogen to synthetic fuels such as e-fuels for aviation. The event will offer a broad spectrum of exhibitors and a variety of exciting solutions and exhibits.

hy-fcell offers both industry experts and newcomers the opportunity to present themselves to an international audience. Be a part of the conversation at the premier hy-fcell Saudi Arabia!
