

International Exhibition
for Viticulture, Wine Cellars
and Distillery Technology

**New in 2022:
Hybrid event format**

Under the motto „Experience technology live“, the machine demonstrations present the most modern technology of the exhibiting companies from the areas of cultivation and harvesting technology. The entertaining, compact and independent product presentations are a favourite of the public. In 2022, the presentations will be filmed and streamed for the first time.

Daily machine demonstrations

Cultivation and harvesting technology in viticulture

With commentary by experts from German teaching and research institutes

Present your novelties in this special framework and give your target group an insight into the practical applications of your products!

Reasons for your participation in the machine demonstrations

- ✓ Triple attention for your products: at the trade fair stand, at the presentation and online
- ✓ Unlimited free admission codes: Invite your customers!
- ✓ Intensive consultations right by the presented machines
- ✓ Live presentation of your machines
- ✓ Editorial coverage of the machine presentations and the participating companies
- ✓ Direct advertising for the machine presentations before, during and after the event
- ✓ **International visibility for your products due to the digital component of the machine demonstrations**

Register now and benefit from the advantages!
