

# **MOULDING EXPO**

**MOULD  
MAKING  
AT ITS BEST**

**Focused +  
Comprehensive**

**11-12 May 2027  
Messe Stuttgart  
Germany**

# *A fresh perspective for Moulding Expo!*

## **Simpler, clearer and more efficient.**

We have listened to our exhibitors and taken on board what they were telling us. Moulding Expo needs to adapt to the changing requirements of the industry. It is no longer a case of striving for higher, bigger and further, but instead securing a market position efficiently, effectively and at an affordable cost.

## **Exchange and visibility for the industry.**

The industry is currently experiencing unprecedented upheaval. And this makes in-depth exchange all the more important – among each other, with partners and customers. The European tool and mould making industry needs a platform that provides visibility and connection, in difficult times more than ever.

## **Everyone under the one roof.**

This is where the key players for tool construction and mould making come together – the small mould making companies, the globally recognised manufacturers of standard parts and components, the OEMs or the procurement teams searching for reliable partners to join their projects. The big players, dynamic teams and fast thinkers have the opportunity here to explore new connections that could shape the future of manufacturing in turbulent times.

# *Where the movers and shakers meet.*

**1 Standing strong together. Equal opportunities for all.**

Streamlined, top-quality stand construction design for everyone – four packages, everything included. Equal opportunity for all exhibitors – with the same visibility and the same opportunities.

**What's new?**

**2 It's all here – with our all-inclusive packages**

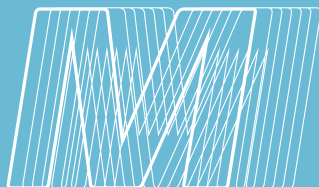

An unbeatable package price that has everything you need – without any hidden costs and minimum effort required. Once booked, everything is covered.

**4 Compact format. Full impact.**

Two focused trade fair days to ensure you successfully reach your intended target audience.

**3 Focused on success**

It doesn't get easier than this – while you concentrate on your customers, we take care of the rest: from stand construction, logistics and parking to lead management and catering.

**MINIMAL EFFORT  
MAXIMUM IMPACT**
