ALREADY THOUGHT OF TOMORROW?

Your stand location: Customer contact, networking, know-how inclusive!

In 2023, Moulding Expo will be the most important European event for tool, pattern and mould making. Be a host for your customers from Germany, Europe and the whole world. At the centre of a diverse user market and in one of Europe's strongest industrial regions, you can show that you are among the best in the sector. The focus at Moulding Expo will be on your expertise!

Your advantages at a glance:

- Make and maintain contacts with customers and technology partners.
- Find sparring partners for your future projects.
- Benefit from the trade fair, accompanying programme and networking offers to get decisive impulses for the further development of your company.
- Catch the attention of the specialist media.

HERE THE FOCUS IS ON YOU

» The networking at Moulding Expo helps us to align our company with the future. If any trade fair, then Moulding Expo. «

Anton Schweiger, Schweiger GmbH & Co. KG

Moulding Expo is the trade fair for tool, pattern and mould making. Here you can present yourself together with the best companies in the sector. Over four days, you can efficiently meet more relevant specialist visitors than anywhere else, including technology partners and exhibiting suppliers from the entire process chain.

As an exhibiting tool, pattern or mould maker ...

- ... you can position yourself with all your competences.
- ... you will meet highly qualified visitors seeking solutions for concrete projects.
- ... you will obtain new perspectives on current themes in the sector.

Exhibition areas:

- Injection moulding tools
- Punching and forming tools
- Die-casting tools
- Casting tools
- Models and prototypes
- Gauge construction and jig and fixtures manufacturing
- etc.

» The contacts we made at Moulding Expo really helped us a lot. The visitors come from the most diverse industries and areas – whether purchasers, developers or product designers. «

Eva Söhnlein, HG Hans Geiger Spritzgießtechnik GmbH

» At Moulding Expo, everyone's on location, whether machine operator, managing director, manufacturing manager or production manager. The trade fair offers a very wide range in the field of tool and mould making, but also 3D printing. «

Udo Hipp, Maschinenfabrik Berthold Hermle AG

CAN YOU DO HIGH-END?

As a supplier company, at Moulding Expo you will meet more tool, pattern and mould makers than anywhere else. You can present yourself together with other high-end providers! Here, you measure your products against the high requirements of the sector. Beyond your trade fair stand, you will also have the opportunity to present your expertise in talk forums and special shows.

As an exhibiting supplier ...

- ... you can position yourself at the centre of the international tool, pattern and mould making sector.
- ... you will meet decision-makers and purchasers seeking the maximum precision and quality of your products.
- ... you can distinguish yourself from the competition by bringing best-practice examples of your customers to life at your stand.

Exhibition areas:

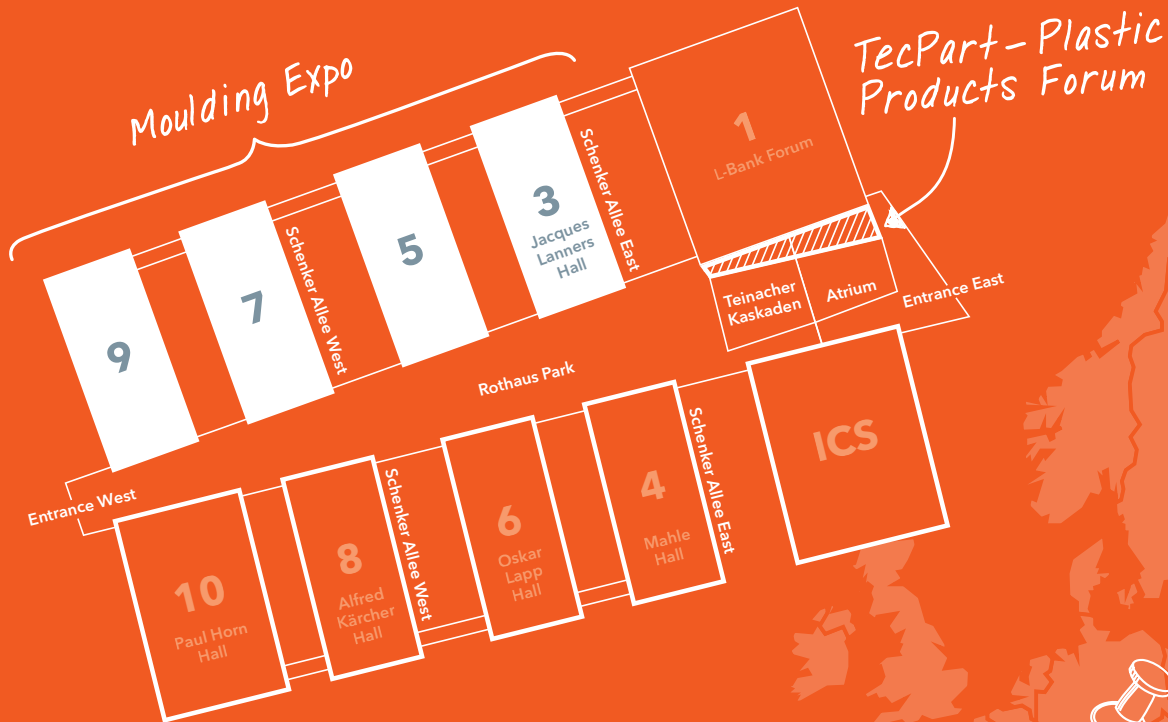

- Machine tools
- Machining tools
- Clamping devices
- Measuring technology
- Software
- Standard components
- Moulds
- Hot runner systems
- Materials
- etc.

AT THE CENTRE OF THE USER MARKET

»» At Moulding Expo, the who's who of the sector will come together – from the region, from Germany and from all over Europe. ««

Stephan Berz, HRSflow GmbH
