## Quantum Effects 2026 – The place to be in quantum business

Become part of the world's leading platform for application-oriented quantum technologies with an annual cycle. Meet decision-makers in Stuttgart and network with the ecosystem and the most important application industries.

### Why you should exhibit:

**Over 100 exhibiting companies, universities and institutions** in field of computing, sensing, communication, enabling technologies, as well as a dynamically growing ecosystem

**120+ international speakers** in curated sessions and industry forums

**2,500 participants** from 26 countries

**Curated matchmaking and other networking opportunities** to engage with industry users

**Exclusive supporting programme:** HPC Quantum AI Conference, Quantum Effects Award, Quantum Effects Academy, Start-up Investment Pitches, Guided Tours, Female Future Tech Summit

**Added value through parallel trade fairs:** VISION, EFX Expo, Motek & Bond Expo turn Stuttgart into a tech hotspot in October.
