VISION AND MISSION OF QUANTUM EFFECTS

Quantum Effects is a trade fair and conference for application-oriented quantum technologies with a global impact. It will secure the vanguard role of Europe in this field.

Quantum Effects will help to develop and design a comprehensive European quantum ecosystem together with industry, science, politicians and the relevant networks and investors. It will create enthusiasm for quantum technologies and provide a platform for innovation, inspiration and collaboration.

The four pillars of Quantum Effects

COMPUTING & ENABLING TECHNOLOGIES

Quantum computers
Hardware for QT
Vacuum
Cooling
Connecting
Controlling

SOFTWARE

Algorithms
Firmware
Development
tool kits

SENSING

Quantum imaging
Measuring technology

COMMUNICATION

Quantum cryptography
Quantum security
Post-quantum
encryption

Figures from Quantum Effects 2023

2.337

participants

95

talks

3

stages

76%

of visitors were
decision-makers
or were involved in
investment
decisions

Top 3 branches of industry from where visitors come*

Industrial applications

38%

Science/research

34%

Universities/universities of applied
sciences/vocational schools

18%

75

exhibitors from

countries

Become part of a network partnership now

As a Quantum Effects network partner, help to actively shape the event with your own specially organised accompanying programme items. Benefit from our assistance regarding rooms and the extended reach of our channels for your advertising and PR activities before and during the event.

quantum-effects.com/network-partner

Secure your stand now

Become an exhibitor and together with us help to actively shape the second edition of Quantum Effects!

Your advantages

- Opportunity to present your use cases, applications, success stories and innovations on your stand and on the stage
- Carry out networking with decision-makers from industry, the economy, science, politics and investment, as well as with young talents
- Positioning as an attractive employer
- Platform for collaborations with new partners
- Separate rooms for business meetings

Registration, exhibiting conditions and stand construction offers online at:
