World's leading trade fair for roller shutters, doors/gates and sun shading systems

Messe Stuttgart, 15 – 19 Feb 2027

Digitalisation of entry and exit management with VisiFair

VisiFair, the digital entry and exit management system of Messe Stuttgart, will be used during the events at the Stuttgart location.

Access to the trade fair grounds during set-up and dismantling is only possible with a registration and a booked time slot. Please note that the slots in the loading bays/at the halls are chargeable. Free slots for parking lots P30 to P32 are available during set-up and dismantling hours.

Information on booking your time slot

- In order to be able to use the VisiFair booking system, please perform a one-off initial registration. You can then log on.
- You can find the link to the booking page and further information online at: **https://www.messe-stuttgart.de/en/visifair**

Due to the limited number of time slots, we recommend an early booking ahead of the event.

- **Entry to the trade fair grounds is via Gate 2 of the truck pool. Follow the "Anlieferung" (Delivery) signs at the entrance to the trade fair grounds.**
- **On the last day of the trade fair, access to the premises is not possible after 12.00 p.m. until the halls are officially declared open after the end of the trade fair.**

At a glance – Important information for stand building

World's leading trade fair for roller shutters, doors/gates and sun shading systems

Messe Stuttgart, 15 – 19 Feb 2027

Important information for your stand building (extract from the Special Exhibiting Conditions)

Please refer specifically to the Technical Guidelines
(https://www.messe-stuttgart.de/en/exhibitor-services/registration-services/registration/)

Stand design and dimensional specifications
Exhibits, reception counters, presentation displays, control panels must be placed at least 0.5 meters indented from the edge of the stand. This ensures that visitors can leave the aisles and enter the stand and that there are no gatherings of people in the hall aisles. Approximately 30 % of an open side may be "built up" with closed walls. It must be ensured that the attractiveness of the opposite and adjacent stands is not degraded. LMS is entitled to have unauthorised/ unapproved stand components removed or modified at the exhibitor's risk and expense.

Hall darkening system
Halls 1, 3 to 10 have darkening systems which are centrally operated by LMS, depending on the light/sunlight. A hall will only be generally darkened if over 75 % of exhibitors in this hall agree.

Stand construction approval
Stand construction approvals must be submitted to the Technical event services of Messe Stuttgart by Monday, 16 November 2026 at the latest. Please submit your documents as PDF files via the online order system of the Stuttgart Messe Services portal (www.stuttgartmesseserviceportal.de). You will receive an e-mailed approval that may contain restrictions and conditions. Please send an e-mail to technik@messe-stuttgart.de should you have any questions.

Important information
It is not allowed to build stands without presenting plans for approval.
Orders received later than 8 weeks prior to the start of stand construction can only be placed on request.
In addition, a processing fee is charged for stand construction approvals submitted subsequently:

after 8 weeks before start of construction: 100.00 €
after 4 weeks before start of construction: 200.00 €
after 1 weeks before start of construction: 300.00 €

Stand construction plans must be submitted at the latest one week prior to the beginning of stand set-up (Monday, 08 February 2027). Submissions received after the stated deadline cannot be checked anymore.

Ceiling suspensions
Please order your suspension components for your stand by December 2026, at the latest.
Please note: This is the final deadline. We cannot guarantee the fulfilment of subsequent orders!!
