The fu med

T4M in Stuttgart: The heartbeat of medical technology.

Innovation is very much a tradition in the homeland of inventors and thinkers. The same also applies to medical technology. About 750 manufacturers of medical equipment – ranging from small production facilities to leading global players – have their head offices in Baden-Württemberg. This makes the federal state the centre of the German medical technology industry, creating powerful synergies for both exhibitors and visitors.

At T4M, the new platform for medical technology in Germany, you can experience the innovative power of medical technology first hand. Leading medical technology suppliers and component manufacturers showcase their latest technologies, innovations and concepts. T4M presents the complete range offered by the industry on an area of 20,000m² **from 7 to 9 May 2019**, providing both visitors and exhibitors with a platform for the future.

More technology, more knowledge, more networking. This is where the industry meets.

Exhibitors

T4M offers a deserving platform for advanced innovations exhibited by suppliers and component manufacturers. This is where the leading specialists in medical technology meet.

Why Exhibit?

- Make first-class contacts with important decision-makers.
- Located in the hub of medical technology manufacturing in Germany.
- Get reliable support on all matters and benefit from an ultramodern infrastructure.

Visitors

Digitisation and complex high-tech solutions: manufacturers often face new challenges here. At T4M, purchasers, R&D heads, production managers, design engineers, electro mechanical engineers and packaging specialists keep on top of things.

Why Visit?

- Experience the complete range of industry topics on 20,000m².
- Receive all-round advice from experienced experts.
- Discover future trends today.

Future of Medical technology

Hands-on innovation: Overview of exhibition areas.

Components and materials

- Electrical components, electronic components
- Sensors
- Drive technology
- Fluidics
- Pumps, valves, hoses
- Processed metal, manufactured metal
- Optical components, displays
- Assemblies, instruments, accessories
- Biomaterials, raw materials
- Materials, adhesives
- Device software

Manufacturing technology

- Machine tools
- Laser processing
- Injection moulding machines, extrusion
- Processing of ceramics, glass and composites
- Joining technology
- Additive technologies
- Surface technology
- Automation, robot systems
- Microtechnology, nanotechnology

Production environment

- Tool construction, mould construction
- Machining tools
- Software, IT
- Digitalisation, security
- Packaging, labelling
- Marking, identifying
- Measuring technology, testing technology
- Clean room
- Cleaning, sterilisation

Services

- Research, science
- Design, development, prototypes
- Inspection, certification
- Quality assurance, quality control
- Job order production, contract production
- Consultation
- Publishers
- Associations

The right offer for your trade fair appearance! (Prices per m²)

Row stand	€ 215,00
Corner stand	€ 240,00
End stand	€ 260,00
Island stand	€ 280,00

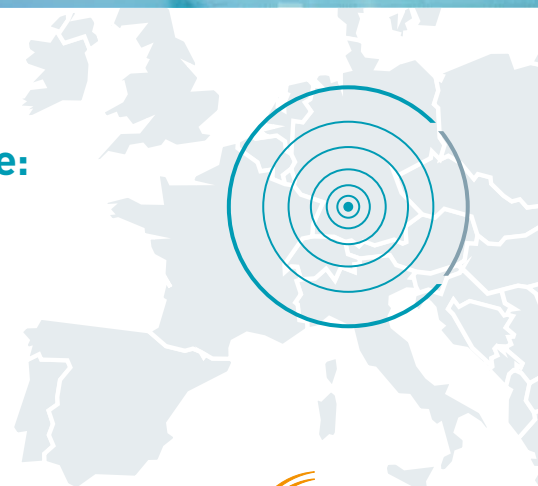

World-class venue, ultra-modern infrastructure: perfect partner in the best location.

Messe Stuttgart combines technical expertise with an ultramodern infrastructure. The exhibition and congress centre at Stuttgart airport is the ideal location for exhibiting and visiting advanced ideas and technologies.

Messe Stuttgart: unique location – easy to reach and excellent overview

-  355 footsteps from the international airport
-  Next to the A8 autobahn with parking space for 7,000 vehicles
-  Many direct ICE (high-speed train) connections to Stuttgart
-  Excellent infrastructure and visitor-friendly fairground layout
