# Caravanning

- Ideal event times in autumn/winter in order to convince visitors with high purchasing power and a desire to travel about caravanning as a holiday form right at the start of the season.
- Optimal composition of the exhibition areas combines interests and ensures that visitors spend a long time at the exhibitions (tourism, caravanning, camping, outdoor activities, diving,...).
- Complete coverage of the caravanning and camping market by manufacturers and retailers, as well as through accessories.
- High purchasing and booking intentions, plus strong purchasing power of visitors due to loyal regular guests and a national catchment area.
- The exhibitions are events for visitors, business and media: the purposeful accompanying programme together with presentations of innovations and network events are aimed at trade visitors, the specialist press and influencers.

## Caravanning exhibition area

- Manufacturers of mobile homes, caravans, box vans, camper vans, etc.
- Manufacturers of expedition vehicles, mobile homes, awnings, roof tents, folding caravans
- Caravan retailers
- Manufacturers and retailers of accessories
- Rental offers
