in VISION

The concept

Is your company involved in the area of industrial PCs (IPCs) and does machine vision represent one of your numerous customer segments?

And you would not like to miss VISION 2021, the world's leading trade fair for machine vision? Then we have the right offer for you.

During VISION 2021 from 10 to 12 November 2021, we are intending to provide a broader platform for the topic of IPCs together with our media partners, i.e. the SPS magazine and its special publication inVISION, on the group stand "IPC 4 VISION".

Present your products and services within the themed area of the group stand - without any great effort regarding organisation and staff, and for an unbeatable package price. Your presentation during VISION couldn't be simpler and more favourable - and you will be there. As the available space is limited, you shouldn't hesitate but register today!
